

## VIC I Team Profiles

### Rosie

#### Therapeutic Behaviour Support Practitioner

**BSc (Psychology), PGCE, NDIS Registered Behaviour Support Practitioner P1711367**

Rosie is a Therapeutic Behaviour Support Practitioner at CBChange with a background in psychology and education. She is passionate about building trusting relationships with participants, their families, and professionals, working together to create meaningful and lasting change. Placing participants at the centre of her practice, Rosie recognises them as the experts in their own experience and ensures they feel safe, heard, and involved at every step. She is inspired by seeing participants achieve goals that once felt out of reach and finds it especially rewarding to witness the ripple effects of these successes, stronger family relationships, greater happiness, and improved quality of life. These moments fuel her dedication and remind her why this work matters.

#### INTERESTING FACT

Rosie loves mindfulness and yoga and recently completed a 350-hour yoga teacher training, which she hopes to bring into her therapeutic practice.
